It is too late for him to addit himselt of any opening in that direction now, for in Jeff. Davis' kingdom they would treat a Republican Marshal as inhumanly, as he lately caused the Harris family to be treated, which, we regret to and, is saying a great deal. We object to a Federal office-holder under-abraham Lincoin surpassing in rushous man-flunting all his predecessors in office. There is a distinction between doing one's painful duty under a law, and making that duty a delight, and yet the latter has been chosen by Mr. Jones.

A CHEAT AT THE BOARD.

Mr. Breekinridge, the man who wanted to be but wasn't elected President, made a speech the other day in which he ventured to express the opinion that the Union might still be preserved if the North would concede enough to make it an object for the Boulh 1/2 remain. Breckinridge is a cheat—a player who loses and refuses to surrend', the stakes—a shyster in politics whose motto is, "Heads I win; tails you lose." If there is anything prophetic in anatomical development, his neck is some day destined to try the strength of hempara an office for which, better than anything else, it is fitted. He is the "head devil" of the commotion in the Border States, without whose Jesuitism and that of the men who act with him, the present difficulties would not continue sixty days. And his risked, lost and refuses to give up the het, the will immortalize himself as the first to carry the morals of the race-track and sweat-board inte American politics.

The second proposes of American proposes of Ame sah, fars, gun-stocks, deer's norns and persaps some other minor products of the region. He raised the flax on his farm and his "thrifty wife" spun and wove it into cloth to make the sails for the "ship," though in sooth that was rather a large name for the little schooner, Capt. Ward provided himself with lines for towing on the canal, took down his own horses, with east from his own hims to feed them and than models his way to the Hadown, when area'n thus made his way to the Hudson, when again rearing his most and spreading his salls in due time he arrived safely in New York.

THE LOSDON THES ON THE "PRACE PROPOSITIONS."

The London Times of March 14, reviews at great length the propositions submitted to Congress by the "One-horse Confer-

rearing his most and spreading his sails in due time he arrived safely in New York.

When the cargo, mas disposed of the little schooner was chartered for the return trip by E. Buckingham & Co., Mr. Sturges being the "Co." and being himself in New York, attending to the business. She was loaded in part with merchandies in New York and her earge was completed with sait at Syracuse. She delivered it safely at Forland, now Sandusky city, whence the goods were carted by teams to Zanesville, Ohio. As the Eric canal was completed in 1825, the lacident occurred probably in 1826 or '27.

That little schooner was the commencement of the immense facet of vessels and steamers by which Capt. Sam. Ward for years controlled the vast commerce of the lakes. On its return his found himself worth about \$5,000, all told. His estate was worth nearly half a million. Capt. E. B. Ward was for many years his partner and business manager, and had the angacity to dispose of most of his steamboat interest just before the completion of our great Eastern 'railway lines ruined the passenger travel upon the lakes. He however has etill a large vessel and propeller interest, and as statedwin an item a day or two since, he and Mr. Sturges have formed as extensive freight line for the coming summer.

Both these gentlemen have now an immense fortune. Their yearly operations are told in million. There was a curious correspond.

farm, Capt. Ward in Michigan at a shiring (12)4 cents) a day; and Mr. Sturges in Connecticut at almepence in the currency of that State, also 12)4 cents per day. But on comparing particulars it was found that Capt. Ward got his board additional, while Mr. Sturges got only his dinner, but with his usual modesty he desired that it was all right for he had no doubt that Capt. Ward's averviese were worth the additional two meals per day to his employer. Capt. Ward now uses more capital in his Wyandotte iron works near Detroit than is represented by all the banks in the State of Michigan, and Mr. Sturges' seventy thousand acres of the choteset lands in the West, and his humens grain warebonece at the illimois Cantral Boys though poor and perhaps ragged now, by intelligent industry and economy, and with a clear head, an honest heart and God's biessing, you can "go and do filkewise." I have also official authority for stating that
last January England and France offered to be
the mediators of a treaty of alliance and of defense between Hayti and the Dominican Republic, by which the integrity of the territory of
oth countries against all foreign powers is guaranteed. The proposition was accepted; comraisoioners named to conclude the treaty; and
when it is signed, France and England should
be pledged to enforce it.

But, even if France did not stand thus
pledged, is it likely that England would pernuit her to seize Hayti, in viousion of the laws
of nations and her own treaty stipulations?

Important order from the Secretary of the Treasury.

To guard against the taking of foreign merchanguse out of hond for the purposes of transportation to States which do not acknowledge the authority of the Rederal Government, thus defrauding the Government of its proper, revenues, the Secretary of the Treasury has issued the following order to the Collectors of Customs at the various Atlantic ports. The practice of withdrawing goods from bond in order to introduce them into flouthern ports under their "more favorable" tariff dues, or without the incohvenience of psying duties at all, was getting to be quite too common to be longer tolerated. The following is a copy of the order:

TREASURY DEPLATEREN, March 20, 1861.

The control of the wardhouses of the Government in the several ports in the States of South Carolina, Georgia, Alabama, Mieslasippi, Louislana, Florida and Texas, baving been usurped, and the authority of the United States, having sheen forebly excluded from their proper functions in the custody of merchandies, and superincedence of the entries for warehousing and withdrawal, it has become impracticable to continue the privilege of bonding for transportation to those ports. chandlee, and superintendence of the entries for warehousing and withdrawal, it has become impracticable to continue the privilege of bonding for transportation to those ports.

Collectors of the Customs are accordingly hereby instructed that no entries for transportation in bond to those ports can be permitted until otherwise directed by the Department.

Yery respectfully, your obedient a roat,

Service of the Tresury.

A special dispatch to the Tribune from Montgomery says that the Southern Government is determined to take Fort Pickess at all hazaris, and if Lincoln attempts to obstruct Southern commerce, all Northern ships in Southern commerce, all Northern ships in Southern waters will be sched.

A Washington dispatch to the Tribune says instructions have been sent to the squadron of Pickens to be on the sheri to co-operate with Lieut, Slemmer.

The Attorney-General is considering the legal authority of the President to collect duties on ship-board, and also his authority to call for volunteers. The Cabinet will determine to-morrow whether to reinforce or evacute Sunter.

The Times Washington correspondent says the Revenue Laws will be enforced at Louisiana. No visitors are admitted to the War Department to-day. The Representatives of the great Powers have unofficially expressed a desire that the Union should be maintained.

Warlike Preparations. NEW YORK, April 15th.—The Governmen has chartered the steamers Baltic and Ariel, and they will carry troops und r scaled orders. The Baltic will carry Capt. Barry's company of skying artillery, 90 men, and the Arial seven

ine matte will energy Capt. Barry's company of sping srulllery, 60 mes, and the Arial seven or eight companies of infantry and marines. They will sail on Studay. The frigate Powhatan goes to sea to-morrow moraing fully equipped and provisioned, and will probably take three companies of troops. The impression at the navy yard is that sumter and Pickens are both to be rehistored. A commany of one hundred men on Governor's Island have received marching orders and others will speedily follow. There are over 2000 troops at the different ethicus in this port.

—Collector Barney was sworn into office to-day. Marshal Rynders selssed a clipper brig, yesterday, on a charge of going into the slave trade, but the evidence is insufficient. She will be probably released. She returned from a China voyage six weeks ago.

THE SOUTHERN COMMISSIONERS,
It is reliably ascertained to-day that
southern Commissioners have pretty in
abandoned the hope of a reply from the WARLIEB BUMORS.

Lieut. Gilman, who has arrived from Fort Pickens with important dispatches to the Government, had an interview te-day with the Fresident and several members of the Cabinet. From all that can be learned, there is little or no doubt that Fort Pickens has been reinforced, men and provisions having been landed some ten days ago. Lieut. Gilman regards a collision there as 'mminent, and would not be surprised to hear for it at any moment. There is, in consequence, much interest manifested to hear for from the South to-day, as decidedly warilke intimations came over the wires last night from Charleston.

PUBLIC FOLICY OF THE AMMINISTRATION.

PUBLIC POLICY OF THE ADMINISTRATION.

It is quite impossible to ascertain what decision the Cabinet has come to, though authoritative circles maintain that it has decided that the status of Fort Pickens shall be preserved, and that Fort Sunnter be speedly evacuated. It is believed that the steamer Pawner will sail from the mayy yard here to bring away Major Anderson and his command. Dr. Fox, the first messenger to Charleston, was before the Cabinet yesteday, and adhered to his original declaration that Fort Samter could be reinforced. CURTAIN GOODS. The government is speedily putting into comculssion all the available naval-force, as upplemental to the Gulf Squadron, which will be commanded by Commander Stringham, and dispatched to the Gulf, in order to meet the proposed increase of naval force which England and France are about to send there, and also for the purpose of protecting the interests of this government, so far as they lie in opposition to Spain's contemplated sciture of San Domingo. The war steamers Powhatan and Minnesotia have been ordered into service, and will be made ready for sea immediately.
